

```
cv::gpu::device::VecTraits  
< char8 >::make
```

```
graph LR; A["cv::gpu::device::VecTraits< char8 >::make"] --> B["cv::gpu::device::make_char8"]
```

A diagram showing a call to the function `cv::gpu::device::VecTraits< char8 >::make`. The call is represented by a grey rectangular box with a black border. A blue arrow points from this box to another box on the right, which represents the function being called: `cv::gpu::device::make_char8`.

```
cv::gpu::device::make  
_char8
```
