

CvPoint2D32f

```
graph BT; CvSURFPoint -- pt --> CvPoint2D32f
```

The diagram illustrates an inheritance relationship between two OpenCV classes. At the bottom is a gray rectangular box labeled 'CvSURFPoint'. At the top is a white rectangular box labeled 'CvPoint2D32f'. A dashed purple arrow points from the 'CvSURFPoint' box up to the 'CvPoint2D32f' box. To the right of the arrow, the text 'pt' is written, indicating the variable name used for the inheritance.

CvSURFPoint
