

cv::gpu::device::abs
_func::operator()

```
graph LR; A["cv::gpu::device::abs  
_func::operator()"] --> B["cv::gpu::abs"]
```

A diagram illustrating a mapping or aliasing relationship. On the left, a gray rectangular box contains the text 'cv::gpu::device::abs' followed by '_func::operator()' on the next line. A dark blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text 'cv::gpu::abs'.
